‘Going Green Weekend’ and Eco Fair - 2nd and 3rd October 2021

The United Nations Climate Change Conference (COP 26) hosted by the UK is to take place in Glasgow between 1st and 12th November 2021. In the run-up to this major international event, various local activities are being planned to raise awareness of climate change in a ‘Going Green Weekend’ over 2nd and 3rd October.

Jointly organised by the Boston Spa, Wetherby and Villages Community Green Group, Churches Together and Wetherby Town Council, the aim is to promote a range of ‘green’ initiatives to encourage individual and community action to protect the local environment and help combat climate change. The focus will be on providing information to members of the public highlighting the practical steps they can take to reduce their carbon footprint and contribute to helping combat climate change.

The main event of the ‘Going Green Weekend’ will be an Eco Fair which will take place between 10am and 4pm on Saturday, 2nd October 2021 at Wetherby Methodist Church. In addition to various displays and presentations, there will be activities for children, cake stalls and refreshments. Displays will also be mounted in the Town Hall and the Horsefair Centre.

Local shopkeepers will be encouraged to mount ‘Go Green’ window displays and there will be poster competitions for schoolchildren. Prizes will be awarded for best shop window display and best poster by school children (in age category).
